34

ACRES FOR EXPANSION

Now available for the first time in years, the Midwest Cold Logistics Center is an ideal location for a wide range of uses.

The 587,228 SF existing structure is temperature-controlled and rail-served making it unique among opportunities in the region.

The existing building is divisible and/or expandable to suit any user's needs, with the added bonus of 34 acres of adjacent land enabling even more flexibility.

41' Clear Height

High ceilings throughout, with the capability to build 50' clear in expanded construction

84 Dock Doors (Expandable)

Cross-dock configuration, with a concrete truck court and dolly pads

90% Racked 82,000 Positions

Tremendous capacity, racked and ready to go

40° Temperature (and lower...)

192,505 SF is currently maintained at 40°, with the remaining 381,509 SF at 70°. All building segments are capable of lower temperatures.

34kV Power Service

34kV existing power, which is good for a medium sized manufacturer that might need 10-15MWs of power. Enough for a data center.

Your hub for Midwest operations

Enormous scope within a single day's drive.
